LYNCHBURG TOBACCO MARKET, Lynchburg, Va., May 2, 1903.

Lynchburg, Va., May 2, 1963.

Receipts of tobacce in the warehouses of the city last week amounted to 387,000 pounds, which was considerable failing of as computed with several preceding weeks. The condition of the tobacco offered shows some improvement, though there was a little mould on much of it. Prices showed a tendency to advance, and it is expected that they will be still better. Quotations are as follows:

NEW YORK UTILITIES ROSE

This Was on Demand from Bears to Cover Short Contracts-Mexican Railway Stocks Felt Good Effect of Rise in Price of Silver.

(By Associated Press.)

NEW YORK, May 2.—The almost lifeless condition of to-day's stock market reflected the continued indifference of all classes. The demand for the New York Public Utilities seemed due to covering of short contracts by bears, who hoped for a decline as a result of the establishment of the franchise tax. The renewed rise in the silver market started the National Rallway of Mexico stocks upward again, and the smelting stocks were slightly benefited from the cause. Pennsylvania's net earnings for March were a disappointment, the gain in the gross carnings for the lines east of Pittsburg and Erie being practically wiped out by the added operation expenses, while for the lines was shown. Official expressions of a hope that future statements would make a better showing induced some buying of the stock.

The improved weather conditions served to relieve apprehensions over the effect on the crops, although the news from the West was of considerable damage by frost.

West was of considerable damage by frost.

Some profit-taking was in evidence before the appearance of the bank statement, and the level of prices fell below last night all around when the statement was published. The unexpectedly large loan expansion kept even pure with the increase in resources by reason of cash receipts, so that the change in the surplus reserve item was merely nominal. The large demand for loans is believed to the week's payment of excise taxes in New York, to vesterday's payment of subscriptions for the new Eric convertible bond issue and to a transfer of load market. The selling movement was not pursued, and the market steadled before the close, which was, however, nearly stagmant.

fore the close, which was, however, head ys stagmant.

The increased supply of money has developed some demand for a number of rallroad mortages, but prices at other points have receded. United States new 4's advanced 3'4 per cent. as compared with the closing of last week.

The total sales of stocks for the day were 134,500 shares.

THE EDITOR'S VIEW

Yesterday's Trading As Seen by the Financial Editor of the Evening Sun.

Financial Editor of the Evening Sun.

(Special to The Times-Dispatch.)

NEW YORK, May 2.—The Evening Sun in its market review says:

The dealings in this morning's stock market were again in very light volume, but the trading hed a firm tone and conspicuous strength was evident in a number of quarters.

Under the lead of Metropolitan Street Railway, all the traction shares were in strong request from both speculative accounts. Delaware and Hudson retained the strong tone it possessed in yestorday's closing dealings, and the Moxioan railway issues were strong in response to a very sharp raily in the price of sliver builton.

very sharp rally in the price of silver buillon.

Price movements elsewhere in the market were by the most part limited and somewhat itrogular. Active features of the railway list were Pennsylvania, Rock Island, St. Paul, Atchison, Missouri Pacific and the Wabseh issues.

The industrial and miscellaneous stocks were comparatively neglected.

American stocks were strong in the London market, but the operations fere foreign account were upon a trifling scale. More encouraging reports were received with regard to the weather conditions in the Central West, and, as is usual on Saturday, there was much discussion of the probable showing of the bank statement, with regard to which faverable espectations were commonly enter-

orable expectations were commonly differentially.

On the other hand, it was the general expectation that gold shipments to Europe would be undertaken during the coming week, and this outlook served to hold the trading in check to some extent. There was little news during the course of the business session bearing upon particular stocks upart from the day's returns of rallway traffic. The very heavy increase in the operating expenses shown in the March statement of the Pennsylvania Railroad was unfavorably commented upon and caused temporary weakness in the stock when the figures uppeared.

The increase in actual cash shown in

commented upon and clusted temporary reakness in the stock when the figures typeared.

The increase in actual cash shown in the bank statement was fairly well in line with the preliminary estimates, amounting to \$4.735,000. The street was somewhat unprepared, however, for the large increase in loans, which amounted to \$13.63,000.

It was the common impression that the payment of the Eric subscriptions and the settlement of other large transactions incidental to the first of the month applained the big rise in the loan account. The increase in loans and in actual cash was very closely reflected in the deposit account, which rose \$15,165,000. In consequence, notwithstanding the handsome gain in cash, surphs reserves increased only \$195,000.

The banks now hold \$11,181,000 in excess of the lawful requirements. The large expansion of the loan account was generally unfavorably construed in the market, which developed reactionary tendercies upon the publication of the statement.

WALL STREET GOSSIP

A Very Tame Market-Some Strength

Shown by the New York Tractions.
(Special to The Times-Dispatch.)

NEW YORK, May 2.—The opening was very tame and there was very little dis-position to trade, even among the profes-

position to trade, even instance process and no orders of consequence, and the arbitrage people reported no orders. There was a little strength in one or two stocks for individual reasons, but outside of this the opening quotations told nothing.

PENNSYLVANIA CHECKED:
Pennsylvania was checked on the statement, which had not been fully understood and digested, but the short interest protected the price to a considerable extent.

ERIES SOMEWHAT EASIER:
Dries were somewhat easier, as the devolopments before the interstate Commerce Commission were not liked.

METROPOLITAN:
Metropolitan improved at the expense of the shorts and on the reports that the District Attorney's expert would exonerate the management.

Outside of Metropolitan and perhaps Mexican National, the trading was insignificant in the first hour. The important room traders were absent, and there seemed to be nobody to take the lead. The smaller speculators were very conservative and did not seem inclined to go home with anything open.

COTTON MARKETS.

COTTON MARKETS.

NEW YORK, May 2.—The cotton market opened stendy with prices 1@3 points lower. The weakness was the result of ndverse cables and better crop reports. Later business increased the decline to 2@ points on the old crop positions and 1@2 points on the new crop, with a covering steadying the market to a partial reaction later in the day.

Stocks!

The recent very satisfactory reports of railroad earnings and the prospects of a "bumper" wheat crop is the real cause for the present strong market. Labor troubles, "court" and "commission" decisions

"court" and "commission" decisions will continue to be the disturbing factor and will cause lively reactions from time to time.

I believe that stocks can be bought on the breaks with safety. You must not lose slight of the fact that the present market price for good dividend payers (rates for money considered) are an attraction for investors. With fast private wires to New York, Chicago and Philadelphia, I am in a position to execute your orders to your satisfaction. Two points margin accepted and no interest is charged. Correspondence solicited.
